Install the file to your Flash drive using Windows Explorer or a partitioning/data recovery tool such as Partition Commander, Windows Live Disk Creator or MountExFAT. Unzip the download into a separate folder and delete the.exe file. Use the WinConfig utility to check and fix the file. Eliminate any errors that surface and remember to save all changes. Copy the data back to the desired folder. Exit the WinConfig utility, highlight the hidden.exe file, right click and choose Extract All. For more information see the WinConfig Installation Guide. A: The file, in my testing, appears to be identical to the one linked to by youtube. I suspect the link by youtube was the original, used to make the video, while the actual download is an update. f678ea9f9e
